PROFILE

Final year B.Tech Computer Science Engineering (Cyber Security) student passionate about ethical hacking, web application security, AI security, and full stack development. Certified Ethical Hacker (CEH) with hands-on Vulnerability Assessment & Penetration Testing (VAPT) experience and a track record of building independent security tools and AI-powered applications.

SKILLS

Cyber Security	Penetration Testing, VAPT, OWASP Top 10, Web Security, Burp Suite, Nmap, Metasploit, Linux, Kali Linux, Wireshark
Programming	Python, PHP, Laravel, JavaScript, HTML5, CSS3, Java, SQL, Git, GitHub

EXPERIENCE

Cyber Security Intern

- Performed Vulnerability Assessment & Penetration Testing (VAPT) on live applications
- Carried out web application security testing against OWASP Top 10 categories
- Authored security reports and remediation documentation for engineering teams
- Contributed to ongoing security research initiatives

PROJECTS

Clickjacking Detection Tool

Laravel-based security tool for detecting clickjacking vulnerabilities.

SQL Injection Scanner

Automated scanner supporting GET, POST and cookie-based SQL injection testing.

Security Headers Analyzer

Analyzes HTTP response headers against security best practices.

File Upload Vulnerability Scanner

Tests file upload endpoints for unrestricted type, size and payload flaws.

Host Header Injection Scanner

Detects host header injection vulnerabilities in web applications.

HTML Injection Scanner

Detects HTML injection vulnerabilities and produces detailed vulnerability reports.

AI Voice Agent

Conversational voice assistant built using Python and AI APIs.

AI Threat Detection (YOLO)

Object detection model for identifying roadside threats in real time.

Credential Stuffing Testing Tool

Simulates credential stuffing attacks to test login-flow defenses.

Portfolio Website

Personal portfolio built with HTML5, CSS3 and vanilla JavaScript.

EDUCATION

- **B.Tech, Computer Science Engineering (Cyber Security)** — Final Year
- **Diploma in Cyber Security**
- **Certified Ethical Hacker (CEH)**

ACHIEVEMENTS

- CEH Certified
- Built 15+ cyber security tools
- Delivered multiple AI-driven projects (voice agent, threat detection)
- Active full stack developer alongside security work
